OR	(OR) Orange
BG	(BG) Bougainvillea
T	(T) Earth brown
C	(C) Citron

"We run a GNVQ project based on Seawhite's Tropical & Mineral range where students develop ideas for a promotional pack, demonstrating the qualities of the paper. The intensity of colour and quality enable the students to explore by cutting, folding, tearing and curling - producing lively and imaginative results. The colours are exciting and inspire the students. The quality of the range is central to the success of the project."

Angela Woodley, Senior Tutor, Walsall College of Arts & Technology.
