

display files

Our brief from Coventry University - take a Japanese display file costing £7.95 and reduce the price without compromising quality; the result is the Seawhite Clear-Book, not only have we managed to cut the price by more than 70%, the product is better too!

CLEAR BOOK

The Seawhite Clear Book is our own display-file, made to the highest specification. The frosted clear cover is highly popular while students can still personalise, either through the frosted cover or by inserting artwork to the spine.
